

Helping People by Innovation

HELPING

“We help people”

WE HELP PATIENTS

to receive treatment safely
to experience outstanding therapy
to improve their quality of life.

WE HELP DOCTORS

to work efficiently
to work comfortably
to work quickly

SAFELY AND EFFICIENTLY SUPPORTING PATIENTS AND DOCTORS

We consider it the most important value of the company, and we carry out research and development with an emphasis on this.

“We innovate”

INNOVATION

By developing new stent materials, structures and procedures, manufacturing and distributing quality products, we strive to provide reliability and usability to healthcare professionals and ultimately contribute to improving and extending patient lives.

- We have developed and supplied **safe, efficient and sustainable** stents based on a long history,
- developed the **world's first** nitinol stent and covered stent, and developed
- the **world's only** manufacturing method and manufacturing process.
